GLOBAL MISSION SOLUTIONS - THE ACUITY ADVANTAGE

Acuity International is a trusted leader in Military Munitions Response, Mine Action and Demilitarization with a proven history of providing innovative solutions to government and commercial clients worldwide.

- Our teams have decades of experience comprised of high-skilled personnel to address a wide variety of site conditions, including terrestrial and underwater, urban and austere locations.
- We received accreditation through the U.S. Department of Defense Advanced Geophysical Classification Accreditation Program (DAGCAP) to provide Advanced Geophysical Classification (AGC).
- We are ISO 9001 and 14001 certified, and in compliance with CERCLA, RCRA, Military Munitions Response Program (MMRP), and International Mine Action Standards (IMAS).
- We have successfully supported client missions ranging from U.S. and foreign governments to humanitarian and commercial organizations including U.S. Department of Defense, U.S. Department of State, United Nations and Oil and Gas Sector.

1M+

displaced people returned to their homes, farms, and villages in the Middle East after Acuity clearance operations.

1B+

square meters of contaminated land cleared in more than 30 countries

LEARN MORE ABOUT ACUITY GMS

Delivering mission support solutions customized for each client's unique operational requirement, Acuity's Global Mission Solutions (GMS) teams build, operate, maintain, secure, and sustain operations in some of the most complex, hostile, and austere locations in the world. Its integrated logistics, base operations, munitions response and mine action, and security solutions not only are vital to mission success but also help improve and preserve the well-being of thousands of government and civilian personnel worldwide.
