LEARN MORE ABOUT ACUITY COSTCENTER

Built and maintained by experienced cost engineers, CostCenter cost estimating tools gives you the power to create detailed estimates based on current, accurate, and defensible cost data. Our cloud-based tools put you in control, so you can collaborate with your team whether you are at the office or in the field.

With nearly 40 years of cost estimating experience, Acuity International, formerly known as Project Time & Cost, LLC (PT&C), built an estimating platform with the needs of the estimator in mind. Our intuitive interface is designed to help you do your job better, faster, and with less rework required. When paired with the CostBook, you will have confidence that your detailed estimate is both current and accurate, regardless of the size of your project.

Connect with a CostCenter representative today. We can book a demo, start a trial, or create a custom package for you.
