EMERGENCY SHELTER ITEMS TOTAL PACKAGE SOLUTION

Acuity has the capability to provide State Emergency Management Operations departments across the CONUS, Alaska, Hawaii, Puerto Rico, and the Virgin Islands with commonly used General Public Shelter supplies within 24-48 hours of contract award. Our experienced supply chain experts assist planners in identifying current and future supply chain disruptions that impact the ability to respond to a major disaster. Acuity's total package solution is available through the GSA under a BOA, which is effective through 31 December 2026.

With a long history of providing emergency response services to natural disasters, recovery operations, man-made disasters, and urgent medical needs, we support critical and complex projects and programs.

- Acuity's **Advanced Medical Solutions** team seamlessly integrates our services with government and civilian response teams. We have the capacity to rapidly deploy medical staff, equipment, materials, supplies, and emergency shelter services for initial response as well as to provide additional services deemed critical in support of major disaster relief operations.
- Acuity's **Engineering and Technology Solutions** team uses cutting-edge technology to deliver engineering insights to federal and commercial clients. Our expertise in building, construction, civil engineering, and environmental remediation projects is a key factor from the initial planning phase or in response to accidents and natural disasters.
