

CHALLENGE

During times of emergency, governments of all types are often burdened with procurement processes that can't successfully meet the demands of the situation. Acuity is here to help.

Solution

- ▶ Assist federal agencies, state and local, tribal, and territorial governments in the rapid procurement and delivering of supplies and services in anticipation of, and response to, emergencies to minimize administrative burden.
- ▶ Provide vendors offering emergency supplies, services, and managed solutions with the opportunity to compete for emergency acquisitions and support emergency response efforts.

THE ACUITY ADVANTAGE

Acuity International enables mission continuity and stability for government and enterprise organizations, tackling some of the toughest projects on earth.

HOW WE CAN HELP

Acuity offers experience in providing the necessary supplies and services under extreme and challenging circumstances, both domestically and internationally.

- ▶ Acuity's Global Missions Solutions team builds and operates in some of the most complex and hostile environments in the world. Our integrated logistics, base operations, and security solutions are field-tested and proven, and our teams have extensive experience in providing life support and accommodations such as medical and emergency response services.

Acuity can respond to natural disasters, recovery operations, manmade disasters, and urgent medical needs.

- ▶ Acuity's Advanced Medical Solutions team is flexible and dependable with the ability to immediately deploy medical staff, equipment, materials, supplies, and emergency shelter services for the initial response and ongoing support. Acuity responds to natural disasters, recovery operations, man-made disasters, and urgent medical needs with seamless integration of government and civilian teams.
- ▶ Acuity's Engineering and Technology Solutions uses cutting-edge technology to deliver engineering insights to federal and commercial clients. Our expertise in building construction, civil engineering, and environmental projects is key. From initial planning or in response to accidents and natural disasters Acuity provides our clients' most critical and complex projects and programs.

Acuity's Mobile Medical Unit (MMU) has mobile capabilities to support ad-hoc and quick-surge medical events. The MMU is staffed by an RN, APRN, medical administrator, and other medical personnel and includes a front desk/triage area, two (2) exam rooms, lab collection, an x-ray area, a drug specimen collection restroom, and an audiometric booth.

Acuity's Critical Care Response Team (CCRT) can provide critical support to areas prevalent to COVID and other pandemic-type incidents. It's formed of physicians, registered nurses, respiratory therapists, and other healthcare professionals. Our medical professionals conduct bedside clinical education while treating patients and training the frontline healthcare professionals.

ABOUT ACUITY

Acuity International, headquartered in Reston, Virginia, provides process and technology-based critical services to global government and commercial enterprises. With expertise in a range of engineering and consulting, software solutions, medical care, occupational health, global mission, environmental remediation, and secure and complex construction management services, augmented by deep expertise in cybersecurity, artificial intelligence, and cloud solutions, Acuity International is positioned to assist its customers in their critical missions anywhere in the world with the latest technology and repeatable processes.
