Global Security Services

Innovative and reliable risk management solutions to ensure seamless operations and bring accountability to any mission

Capabilities

- Risk assessment and solutions implementation services - advisory, contracting, and training pertaining to security of individuals, governmental, non-governmental, and private organizations

- Integrated mitigation capabilities addressing the full spectrum of security issues including intelligence, technology, and graduated profiles of static and mobile security templates and procedures

- Life support and accommodations in conflict and post-conflict areas, technical trades support, facilities operation and maintenance, fuels management and engineering staff support

- Critical infrastructure security - providing turnkey solutions to government and commercial clients to ensure continuity of global operations in dangerous and austere environments

- Access control and surveillance detection and fire alarm and fire suppression support service

The Acuity Advantage

- Our teams have extensive experience in providing life support and accommodations; technical trades support; petroleum, oil and lubricant (POL) management; HAZMAT management; third country national (TCN) recruiting and training; along with a large suite of training to U.S. Government clients such as the U.S. Department of Defense, U.S. Department of State, and the U.S. Agency for International Development.

- Our risk management, personal security, surveillance detection and infrastructure security experience are comprised of securing military installations, U.S. and foreign embassies, U.S. border assets, oil and gas installations, port facilities and protecting individuals throughout the world.

- We are a proven security provider with an exceptional performance record of successfully protecting people, assets, resources, and commodities against all types of threats.

- Our tailored security and risk management solutions integrate operational and mission planning, security solutions, life support, state-of-the-art technology and innovative solutions to ensure seamless operations.

52K+ personnel safeguarded without a single operational loss of life or injury

32K+ mobile protective missions over the last 10 years

About Acuity Secure

A government agency's workforce is its most valued asset and must be protected and secured – all the time, anywhere. That's where Acuity comes in. We create customized, repeatable, and highly effective security programs that protect government and civilian employees in some of the world's most complex and hostile environments. Our technology-enabled solutions and purpose-built frameworks control scope, cost, and risk. They're designed by humans to protect humans – no matter where they are.
