

# Logistics & Base Operations

Integrated solutions to establish, secure, and sustain critical infrastructure.

## Logistics

Mobilizing thousands of personnel and logistics assets in support of critical government, military, intelligence, and commercial missions worldwide. Whether it's a U.S. or foreign military base, training site, government station, or oil and gas facility, our logistics and life support solutions improve performance, reduce costs, and increase operational readiness. Our focus on client mission success and performance excellence ensures essential infrastructure and support services are available 24/7/365.

## Base Operations

Providing proven logistics, resources, and specialized skills needed to efficiently and effectively operate military bases and government facilities anywhere in the world. Our integrated solution can include maintaining, operating, and managing buildings, housing, utilities, roads, grounds, security, airfields, and fuel depots. We also provide security management, medical and emergency services, and life support services.

## The Acuity Advantage
