

Corporate Occupational Health Managed Services

Streamline & Optimize Your Workforce Health

Key Benefits of Acuity's Corporate Occupational Health Managed Services:

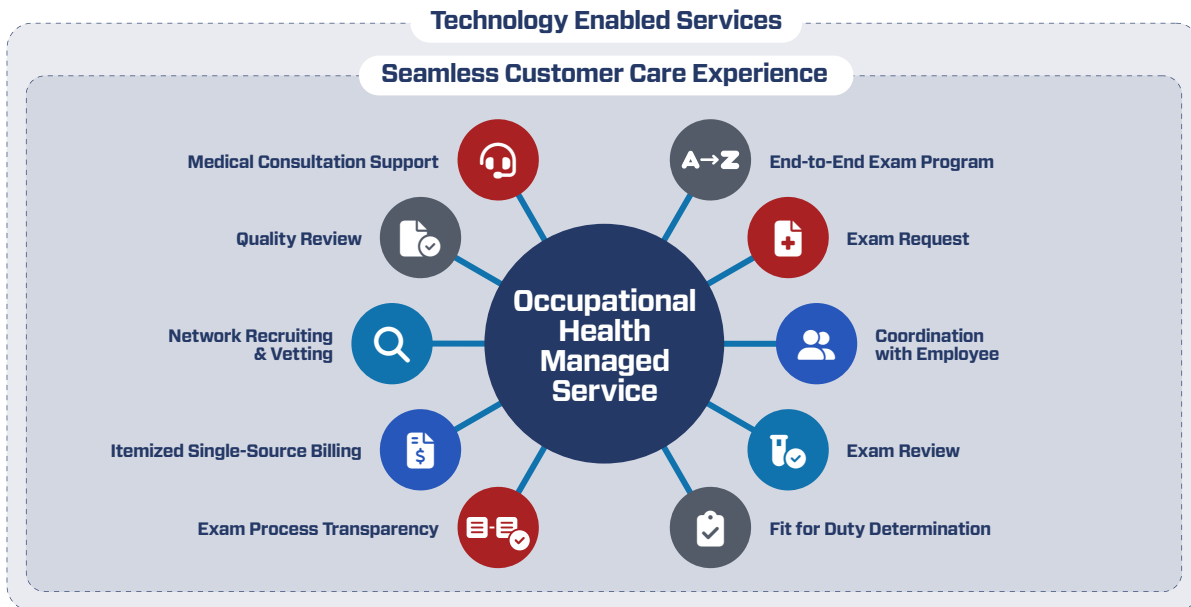

- **Increase Operational Efficiencies:** Centralize and standardize your occupational health program. We eliminate redundancies, streamline workflows, and optimize resource allocation, resulting in improved productivity and operational effectiveness.
- **Rapidly Flex Budget:** Scale your occupational health services up or down quickly as employee trends fluctuate – so you can align your budget with actual workforce needs and maximize cost efficiency.
- **Decrease Turnaround Time:** Reduce turnaround time for various occupational health services such as pre-employment screenings, medical evaluations, and injury management. Make decisions faster and reduce waiting periods for employees.
- **Improve the Employee Experience:** Consolidate and standardize your occupational health program. Enhance the employee experience, ensuring consistent and high-quality services across multiple locations. Simplify appointment scheduling, streamline documentation, and provide easy access to health records.
- **Provide a Reduction in Budgetary Expense:** Optimize costs by eliminating the inefficiencies associated with decentralized workforce health programs. Minimize overhead costs, reduce administrative burdens, and achieve measurable cost savings.

Who Benefits from Acuity's Corporate Occupational Health Managed Services?

Acuity's Corporate Occupational Health Managed Services are ideal for organizations that:

- Have a large employee population (typically over 2,000 employees).
- Have multiple employee locations and would benefit from centralized and standardized occupational health services.
- Experience fluctuations in employee hiring, necessitating the ability to adjust health services accordingly.
- Operate a decentralized workforce health program that lacks efficiency and coordination.
- Use multiple vendors for workforce health services, leading to complexities and increased costs.
- Have specialized exam requirements such as DOT/FRA/FMCSA that require compliant testing and efficient management.
