Civil Services

Comprehensive Shelter Management, Social Services, Case Management,
and Community Support for At-Risk Populations

ACTIONS WITH PURPOSE, RESULTS THAT MATTER.

Introduction

Disasters, emergencies, and humanitarian crises are complex and unpredictable and can strain local resources, disrupt infrastructure, and impact healthcare systems and communities. As climate change intensifies and crises, such as migrant surges and natural disasters, become more frequent, the need for coordinated, multidisciplinary responses has never been greater.

Acuity International's turnkey Civil Services solutions are designed to meet these challenges head-on, ensuring effective support where it's needed most.

Our experts focus on delivering critical care, infrastructure, and case, program, and logistics management. They help stabilize and rebuild affected areas and communities, ensuring that individuals and families receive the critical support they need - from immediate relief to long-term recovery.

It's all part of Acuity's mission to provide you with end-to-end infrastructure and support for at-risk populations to drive stability, wellness, and the transition to self-reliance.

The Acuity Advantage

Acuity International's comprehensive Civil Services mix unparalleled expertise and innovative technology to empower communities, one individual at a time, with scalable, end-to-end solutions that drive stability, wellness, and the transition to self-reliance.

Our mission is to deliver comprehensive solutions that address the unique needs of vulnerable communities, ensuring their safety, health, and well-being. Through innovative approaches in infrastructure, healthcare, social services, logistics, and emergency response, we provide the expertise and resources necessary to create stable, resilient environments where at-risk populations can recover and thrive.

Our field-tested teams are skilled in virtually every aspect of site and shelter operations, infrastructure and program management, social services, case management, wraparound services, and trauma-informed care.

They take the management of end-to-end infrastructure and support for at-risk populations out of your hands, so you can focus on what matters most – delivering critical services, ensuring safety, and driving successful outcomes.

With Acuity International handling the complexities of infrastructure, logistics, and care, you can concentrate on making a meaningful impact in the communities and regions that need it most.

Our Services

Site & Shelter Operations

State and local governments face a growing need for shelter and services to assist the unhoused and the increasing influx of migrant populations. Acuity provides comprehensive support for temporary and permanent facilities in various environments – from set-up to long-term maintenance with a focus on safety, security, sustainability, and efficiency.

We specialize in rapid shelter deployment, transportation, security, IT and communications, medical care, and food, beds, clothing, and hygiene services. Our expert teams also oversee daily operations, staff management, housing, facility maintenance, and supply chain management.

Wraparound Services

Acuity's wraparound care services ensure individuals residing in shelters, particularly those facing homelessness and displacement, have access to holistic, coordinated support to transition to stable, long-term housing and improve their overall well-being.

Our comprehensive approach focuses on meeting a wide range of needs, including physical, emotional, and social. It combines case management, individualized support, health and mental health services, education, life skills, legal assistance, and other wraparound services. This ensures a seamless continuum of care from assessment to independence.

Program Management Services

During times of crisis, affected populations require rapid, responsive, and organized assistance. Acuity delivers strategic, operational, and logistical leadership to affected communities – within 72 hours of a declared disaster. Our experience in managing large-scale, high-risk operations ensures that staff are mobilized and humanitarian programs – including emergency response, infrastructure management, frontline medical capabilities, and multi-stakeholder coordination– are delivered efficiently and sustainably, even in the most challenging environments.

Case Management Services

Our holistic and survivor-focused case management services ensure individuals, groups, and families receive the support they need to regain stability and resilience after a disaster or displacement. We provide personalized, coordinated assistance, including needs assessment and intake, housing and financial assistance, counseling, medical care, crisis intervention, employment and workforce development, social and community support services, legal and relief advocacy, and continuity of care.

Trauma-Informed Care

Acuity integrates trauma-informed care into our service delivery, especially in response to humanitarian crises, disasters, or other high-stress situations. Our approach helps disaster survivors and vulnerable populations recover in a manner that prioritizes their emotional and psychological well-being while fostering resilience and long-term healing. We create safe environments, foster autonomy and choice, deliver culturally appropriate care, and build trust through targeted support and sensitive care delivery.

Why Choose Acuity International
