

CAPABILITIES STATEMENT

Environmental Remediation

CS003-V1-10312024

About Acuity International

Acuity International works closely with federal, state, and local governments around the world to build safe, secure, healthy and thriving communities. We are a single source for healthcare, humanitarian, disaster and emergency response, and security operations in all corners of the world.

Core Capabilities

- Munitions, Explosives Management, and Demilitarization
- Improvised Explosive Device (IED) Defeat and CBRNE Response
- Military Munitions Construction Support and Range Sustainment
- Demining and Mine Action Compliance
- Training, Capacity Building, and Curriculum Development
- Comprehensive Environmental Assessment, Remediation, and Hazardous Waste Management
- Environmental Compliance, Risk Mitigation, and Sustainable Restoration

Key Differentiators

Global Leader in Hazardous Remediation

- Over 30 years of experience in UXO and CBRNE remediation.
- Successfully cleared explosive hazards in over 50 countries.
- Certified experts adhering to international safety standards (ISO 9001:20015-certified, and CERCLA, RCRA, MMRP, and IMAS compliant)
- Trusted partner of governments and international organizations.

Comprehensive Munitions Management

- End-to-end solutions from detection to disposal.
- Advanced technologies for safe and efficient operations.
- Customized strategies for unique site conditions.
- Integration of environmental restoration practice.

Past Performance

U.S. Department of State

- Identified more than 50 devices in an explosive-contaminated cancer treatment hospital housing radiation therapy machines.
- Cleared a safe path through the building, allowing doctors to access equipment safely.
- Restored access to technology that was essential to patients' well-being, doubling Iraq's ability to treat and fight cancer.

U.S. Army Corps of Engineers

- Completed a five-year mission clearing ordnance from 62 U.S.-operated ranges in the Middle East.
- Removed artillery and ammunition on the surface and subsurface of the ranges.
- Hired and trained local workers to assist in munitions response at each work site.
- Denied insurgents the chance to gather unexploded content and use IEDs to target U.S. service members and improved the safety of the civilian population.

Compliance & Accreditation

- ISO 9001:2015 Quality Management Systems
- Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)
- Resource Conservation and Recovery Act (RCRA)
- Military Munitions Response Program (MMRP)
- International Mine Action Standards (IMAS)
