Key Differentiators

Expertise Across Medical Disciplines

- Highly qualified and certified medical professionals.
- Comprehensive services, from primary care to specialty surgery.
- Continuous professional development and customized training.
- An unwavering commitment to excellence in patient care.

Customized Medical Training Programs

- Tailored courses, including CPR, ACLS, PALS, and EMT training to enhance skills and readiness.
- On-site and remote training.
- Certified by National Safety Council and National Association of Emergency Medical Technicians.

Past Performance

Disaster Response in Haiti

- Provided critical medical support and logistics following the January 2010 earthquake in the Republic of Haiti.
- Established temporary clinics, delivered and administered medical supplies, and more.
- Helped thousands of citizens receive the care they needed during the crisis.

COVID-19 Response

- Significantly expanded telehealth capabilities so patients could easily access care wherever they were located.
- Coordinated the logistics of delivering essential medical supplies, including Personal Protective Equipment (PPE), ventilators, and testing kits to frontline workers.
- Set up vaccination sites and coordinated training for healthcare workers.
- Performed community outreach to educate citizens on how to protect themselves during the pandemic.
