About Acuity International

Acuity International works closely with federal, state, and local governments around the world to build safe, secure, healthy and thriving communities. We are a single source for healthcare, humanitarian, disaster and emergency response, and security operations in all corners of the world.

Core Capabilities

- Program, construction and risk management
- Procurement method strategies
- Project controls
- Constructability reviews
- Cost estimating
- Scheduling
- Change resolution
- Claims mitigation
- Project closeout
- P3 proposal evaluation
- Economic/budget analyses
- Earned Value Management

Compliance & Accreditation

- Team Comprised of:
 - Certified Cost Professionals and Construction Managers
 - Professional Engineers
 - Planning & Scheduling Professionals
 - Project Management Professionals
 - Earned Value Professionals
 - LEED Accredited Professionals
 - LEED Green Associates
 - Risk Management Professionals
- Six Sigma Certified
- ISO 9001:2015 Quality Management Systems
- ISO 14001:2015 Environmental Management System
- ISO 45001:2018 Occupational Health and Safety Management System

Past Performance

Construction Assessment and Cost Estimates Result in Successful Completion of U.S. Army Medical Center

- U.S. Army Corps of Engineers needed to assess the remaining work required to complete construction at its Rocky Mountain Regional VA Medical Center and deliver an incident cost estimate for project completion.
- Acuity conducted an extensive project overview, defined the remaining scope, and established a comprehensive estimate.
- Acuity's services enabled the completion and opening of the 12-building medical complex on time and within budget.

Ongoing Work with U.S. DoE Leads to Optimized Construction and Project Performance

- Acuity has provided project management support to the U.S. Department of Energy's Office of Environmental Management for several decades.
- Services include cost estimates, performance baselines, scheduling, and more.
- Acuity's support has been instrumental in optimizing performance on construction, decommissioning, and remediation projects.
- Acuity also enables the Department to analyze, evaluate, and report data on its capital asset portfolio, thereby identifying potential risks that could impact project cost, schedule, and completion.

Key Differentiators

Proven Expertise in Program Management

- Over 30 years of experience managing complex projects.
- Proven track record of successful project delivery across various industries.
- Certified professionals in project management.
- Customized solutions to meet client-specific needs.

Innovative Construction Management Solutions

- Advanced methodologies for efficient construction processes.
- Integration of technology for improved project visibility.
- Focus on quality control and safety.
- Close collaboration with all stakeholders for cohesive execution.
