Security Services

Anticipate Threats and Protect Your Assets in Every Environment.

ACTIONS WITH PURPOSE, RESULTS THAT MATTER.

Introduction

Threats against organizations and their people are growing and evolving. Attackers deploy increasingly sophisticated methods to inflict harm on physical and electronic infrastructure, as well as organizations' most valuable asset: their workforce.

This environment calls for airtight security. But that can be a significant challenge for any organization—let alone one with large-scale installations or facilities and workers in remote or hazardous environments. How do you defend your operations, ensuring their continuous functionality and the safety of your employees?

Look to Acuity International. Whether you're seeking to defend a physical structure or your personnel, our security services provide 24/7 protection anywhere in the world. Acuity International's vulnerability and infrastructure assessments, physical systems evaluations, and intelligent threat monitoring secure your organization from emerging threats, while our mobile and personnel services offer protective details and risk mitigation to ensure the safety of individuals, wherever they are.

The Acuity Advantage

Acuity International's primary objective is to make organizations and people safer, healthier, and more productive. Our Security Services are an integral part of that effort.

For decades, our Security Services experts have helped businesses and government organizations protect individuals and assets from those who would do them harm. Our unwavering commitment to mission success has led us to create a team with incomparable security expertise. Acuity has helped government agencies like the United States Department of Homeland Security and United States Air Force, as well as private sector companies, gain an advantage over their adversaries.

Acuity uses a combination of technology and human skills to protect our customers. More than 500 armed guards and bleeding edge AI-powered tools are responsible for more than 10,000 security movements every year. Acuity's leaders and tools come together to do whatever is necessary to protect our clients at all corners of the world.

Vulnerability, Threat, & Infrastructure Assessments/Audits

Acuity specializes in identifying and mitigating vulnerabilities that organizations may overlook. Their expertise includes vulnerability audits, risk assessments, and advanced technology to protect property and personnel, even in challenging environments. They provide physical security risk assessments, structural evaluations, and reviews of both physical and electronic security systems to identify weaknesses. Using AI-driven predictive analytics and advanced perimeter security tools, Acuity offers recommendations to enhance security and keep facilities well-protected.

Mobile & Static Protection Services

Acuity provides 24/7 protective services for securing both fixed assets and those in transit. Their operations include personal protection, convoy security, and secure transportation nationally and internationally. Their experts in team tactics and site surveys ensure smooth client interactions. Acuity also employs fixed site security systems, electronic surveillance, biometric authentication, encrypted communications, and access control to maintain robust defenses.

Integrated Technology & Electronic Surveillance

Acuity utilizes advanced technologies, including biometric authentication, encrypted communications, and access control systems, to build secure defense systems. Their electronic surveillance, powered by AI and real-time monitoring, detects and prevents suspicious activity. Acuity's integrated technology ensures immediate alerts to potential threats, allowing organizations to begin mitigation efforts without delay.

Intelligence Monitoring & Reporting

Acuity's Security Operations Centers collect and analyze data from surveillance systems, access controls, and other sources to detect and prevent emerging threats. By providing real-time intelligence, they enable organizations to stay informed and defend against both current and future risks. Their advanced reporting capabilities enhance decision-making by offering up-to-date insights as threats evolve.

Preventative Training

Acuity's Preventative Training services prepare your personnel to be an effective first line of defense against threats. Their security experts train teams to recognize early warning signs, respond quickly to minimize risk, and apply security best practices and protective measures to prevent threats.

Why Choose Acuity International

Unmatched Global Security Expertise

- Over 20 years of experience in global security operations.
- Proven track record in high-risk and complex environments.
- Trusted by multinational corporations and government agencies.
