

# Actions with Purpose. Results That Matter.

Acuity International is a global leader in delivering comprehensive medical, infrastructure, and environmental remediation services. We support our clients in the world's most demanding and challenging environments, ensuring mission success through expertise, innovation, and a commitment to excellence.

## Who We Are

Acuity International is a leading provider of process- and technology-driven critical services for government and commercial customers. We specialize in **medical services, occupational health, disaster recovery, program & construction management, and advanced environmental remediation** for Federal agencies, U.S. State and Local Governments, global partners, and commercial organizations. Our focus is on ensuring mission continuity and stability by solving complex challenges in some of the most demanding environments worldwide.

The **Integrated Mission Solutions** strategic business unit delivers a comprehensive range of capabilities designed to address our customers' most complex challenges. We specialize in delivering cost-effective program management, supply chain, facility management, security, construction, and environmental solutions in some of the most demanding environments worldwide.

The **Global Health Solutions** strategic business unit leverages technology and peerless talent to provide tailored healthcare programs and time-critical emergency services for Federal, State, and Local Governments, and our partners around the world.

## Proven operational experience providing solutions to U.S. Federal Government agencies & commercial clients
